WEIGHTS

11/14 PT. | THIN & THIN ITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. *It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.*

11/14 PT. | EXTRA LIGHT & EXTRA LIGHT ITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. *It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.*

11/14 PT. | LIGHT & LIGHT ITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. *It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.*

11/14 PT. | REGULAR & REGULAR ITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. *It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.*

11/14 PT. | MEDIUM & MEDIUM ITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. *It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.*

WEIGHTS

11/14 PT. | SEMI BOLD & SEMI BOLD ITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. *It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.*

11/14 PT. | BOLD & BOLD ITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. ***It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.***

11/14 PT. | EXTRA BOLD & EXTRA BOLD ITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. ***It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.***

11/14 PT. | HEAVY & HEAVYITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. ***It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.***

11/14 PT. | BLACK & BLACK ITALIC

The river Alva is a mountain river, tributary of the Mondego, rising on the southwest slope of the Serra da Estrela and running about 110 kilometres [68 mi]. ***It is known to have a very high variation in its flow, since it has a very low flow in the summer, and very high flow in the winter. This is mainly due to the variation of precipitation.***

A importância desta área faz com que seja Reserva Biogenética. Visitantes 4.

14/17 PT. | BOLD & BOLD ITALIC

De plaats is vooral bekend om zijn plaatselijke lekkernij “Lamprija”, een zeldzame vis die in de Mondego gevangen wordt. Daarnaast staat Penacova ook bekend als Kayak dorp. Het is de startplaats van de Mondego kano-afvaarten.

11/14 PT. | REGULAR & REGULAR ITALIC

The modern phrase “Iberian Peninsula” was coined by the French geographer Jean-Baptiste Bory de Saint-Vincent on his 1823 work “Guide du Voyageur en Espagne”. Prior to that date, geographers had used the terms ‘Spanish Peninsula’ or ‘Pyrenaeen Peninsula’. *Jean-Baptiste Geneviève Marcellin Bory de Saint-Vincent was a French naturalist, officer and politician.*

9/12 PT. | MEDIUM & BLACK

É um rio conhecido por ter uma variação muito elevada no seu caudal, visto que tem um caudal muito baixo no verão, e muito elevado no inverno. Isto deve-se essencialmente à variação de precipitação durante o ano, e a ausência desta no verão, mas também ao facto de o caudal do rio ser controlado em grande parte pelo sistema hídrico

da serra da Estrela (de onde provém o Rio Alvôco que a e se junta na aldeia de Ponte das Três Entradas, no concelho de Oliveira do Hospital e já no distrito de Coimbra. Ao longo do seu curso encontram-se diversos pontos de interesse patrimonial (natural e construído), nomeadamente os vestígios do Megalítico, do período Calcolítico,
